

Atlantic Burn Camp

Notice:

Medications:

All prescription and non-prescription drugs such as Tylenol, Aspirin, ASA etc; that you may be able to use or take must be brought to the Atlantic Burn Camp site with you if there is a possibility that you may need to or have to take these medications for any reason. As you should know these same medications must be passed into the Medical Center Staff, as this is the Camp Policy for control and disbursement of all Medications. This rule must be followed because “Our Nursing Staff” is not permitted by the R.N A.N.S. “Registered Nurses Association of Nova Scotia” to dispense any Non-Prescription Medication without a Physicians order.

Travel Arrangements:

As soon as we have determined how many Campers and Staff we have coming from the various areas you will be notified by:

- 1- Letter
- 2- Phone
- 3- By the person in charge of making the travel arrangements for the Area or Province you are travelling from to the Camp.

Program Suggestions:

Any ideas or suggestions pertaining to the program that you would like to see added or deleted please send them to us at our office “As Soon As Possible” so any and all ideas may be given to the Program Directors so they may consider if it may be possible to try and implement them into the Program when and where possible.
